STATUS

Stable • Internal

chanwer themes are fully aligned with **chanwe-typst**: same tokens, same fonts, same 8-color editorial palette.

This showcase covers every theme variant in the chanwer package — scatter, bar, line, area, distribution, heatmap, faceted, and error-bar figures; gt tables in spacious and compact densities across both background options. All outputs use the typst design tokens directly, ensuring visual consistency between R-generated figures and the surrounding Typst document.
