DOCUMENT MAP

Contents.

This document showcases all ggplot2 and gt table variants produced by the chanwer R package — 22 figures and 8 tables — styled with the chanwe-typst design tokens: Satoshi body, Archivo Black headings, primary orange #FB3DOE, and the 8-color editorial chart palette.

chanwer themes are fully aligned with **chanwe-typst: same tokens, same fonts, same 8-color editorial palette.**

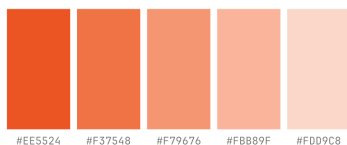

This showcase covers every theme variant in the chanwer package — scatter, bar, line, area, distribution, heatmap, faceted, and error-bar figures; gt tables in spacious and compact densities across both background options. All outputs use the typst design tokens directly, ensuring visual consistency between R-generated figures and the surrounding Typst document.

This document showcases `chanwer` theme functions for `ggplot2` and `gt`, aligned with chanwe-typst design tokens: Satoshi body, Archivo Black headings, primary orange `#FB3D0E`, and the 8-color editorial chart palette.

— DISTRIBUTION

Fuel efficiency by cylinder and transmission

Vehicles with 4 cylinders show the widest spread and highest median efficiency. 8-cylinder vehicles cluster at lower MPG regardless of transmission type.
